📅 Date of Birth: 18-01-2002

🌐 Nationality: Bangladeshi

📍 Rokeya hall- Jahangirnagar University, Savar, Dhaka.

Education & Qualification

SSC 2019
Khoksha Janiput Pailot Govt. High School, Khustia
GPA 5.00

HSC 2021
Khoksha Govt. College, Khustia
GPA 5.00

University (Session 2021-2022)
Bs.C in Department of Institute of Information Technology-3rd Year 2nd semester.

Soft Skills

- Critical Thinking
- Leadership & Collaboration
- Communication & Presentation Skills
- Time Management
- Analytical Reasoning
- Team work

4. Technical Skills

- Machine Learning: Supervised and Unsupervised Learning-running
- Programming Languages: C, C++, Java, Python, SQL
- Web Development: HTML, CSS, JavaScript
- Data Tools: MATLAB, Microsoft Excel
- Operating Systems: Windows, Linux
- Office Tools: Microsoft Word, Excel, PowerPoint
- Graphic Design: Canva, Adobe Illustrator, Adobe Photoshop

Arifa Khatun

Aspiring AI Engineer | Web Developer | Graphics Designer | UX/UI Designer

Career Objective

Dedicated and motivated ICT student with a strong passion for research, innovation, and continuous learning. Seeking an internship opportunity to apply my academic knowledge in Information and Communication Technology, particularly in web development, programming, and software-related tasks. Eager to develop practical industry skills, contribute to real-world projects, and gain hands-on experience in a professional environment. Committed to delivering high-quality work, collaborating effectively in teams, and continuously improving through learning and practical exposure.

Interests

- Artificial Intelligence & Machine Learning
- Data Analytics and Optimization, Research
- Business Strategy & Market Research
- Sustainable Development, website and web app development
- Project Management & Innovation

Courses

- Machine Learning - Coursera, Udmey
- Graphics Design - Digital IT (Instructor - Abu Sayeed, Abdur Rahim)

Achivements & Rewards

- Excutive member- Science Club JU,
- Participated in ICPC preliminary contest in 2024 & 2025
- Programming: Solved 450+ programming problems on various platforms
- Member: SAM Foundation, Khoksha Students' Association Dhaka
- Industrial Attachment: Data Expert - Dhanmondi
- Innovation Seminar - Startup thinking School

Academic / Research Projects

1.Object Detection(ML Project)

- Built a real-time object detection system to identify and classify objects in images and videos using deep learning.
- Tools Used: Python, OpenCV, Deep Learning Models

2. BKash Digital Payment System Simulation

- Developed a simulated digital payment system inspired by bKash to understand transaction workflows and security features.
- Tools Used: Java, MySQL, HTML/CSS

3. Word Guessing Game

- Created an interactive word guessing game to enhance programming and logical thinking skills.
- Tools Used: Java, Python (optional)

4. University Result Marksheet Management System

- Designed a system to manage, calculate, and display students' academic results efficiently.
- Tools Used: Python, SQL, Excel

5. Personal Portfolio Website (ARIFA KHATUN) (<https://a-rifa.netlify.com>)

- Built a responsive portfolio website to present personal projects, technical skills, and contact information in a modern and user-friendly way.
- Tools Used: HTML, CSS, JavaScript, Bootstrap

6.Waste to Resourch Platform (UX/UI and Website)

- The system helps users classify waste, manage recycling processes, and raise environmental awareness efficiently.
- Tools Used: Python, SQL, HTML, CSS, JavaScript

7.Graphics Design Project (logo, t-shirt, chalender, banner, tour project, 25+ projects)

- Created visually appealing digital designs including posters, banners, and social media content to communicate ideas effectively and enhance brand identity.
- Tools Used: Adobe Photoshop, Illustrator, Canva

8.Industrial Attachment Paper

- Gained hands-on experience in data entry, data processing, and basic database management. Learned data cleaning, validation, and reporting in a professional IT environment.
- Tools Used: MS Excel, SQL, MS word, powerpoint
